YOUTH

WHAT'S YOUR TAKE ON CONTEMPORARY ART?

We are looking for a group of young people, aged 18-21, curious to understand how contemporary art works in Helsinki.

Art gives visibility to stories, experiences, discussions: whose voices are we representing? How do we work with art and who gets to work with it? If you'd like to tackle some of these questions with us, this is for you.

PUBLICS Youth Advisory Board is a paid position, where the Board members collaborate during monthly sessions through the year 2023. The sessions are facilitated and you don't need previous experience in the arts to apply. We invite you to think together, engage in conversation with the team and other invited arts professionals, and collaborate towards a small production. PUBLICS Youth is a work and learning opportunity, offering an insight in the local and international art scene.

Whatever you're doing in life, please bring yourself: your background, interests, ideas and questions.

PUBLICS is an art organisation who collaborates with creative professionals in Helsinki and beyond, to produce artistic events on themes like sound, voice, participation, accessibility.
